Unit aim

The aim of the unit is to enable learners to understand varied ISL in a range of work **and** social situations.

Unit Summary

By the end of this unit the learner can follow conversations and discussions delivered at normal speed on a range of topics in different work and social situations (including one to one interaction, group discussions and presentations). Learners can take part in straightforward social interaction as well as following uncomplicated negotiations, discussions and instructions within their area of work. The learner can understand straightforward news items, interviews and documentaries. If appropriate, they can deal with straightforward telephone or video calls or web-based live communications.

Receptive skills

Note:

The natural context for using Irish Sign Language (ISL) is through communication e.g conversations, discussions, and presentations. The best approach to teaching is to work through ISL321 and ISL322 at the same time, covering receptive and productive linguistic content together.

Learners should receive the appropriate amount of teaching before taking the assessment.

Learners will be expected to attend classroom based learning and teachers should provide a

range of group activities. Teachers are also expected to include one to one tutorials and feedback. Ideally, learners should interact with ISL users in a variety of real life situations and are also expected to pursue a course of private study in addition to the above.
